Bryan,
Could you also see if Tia Cauley and Greg Crowley could be available this afternoon? Janet and I would like to view the proposed staging area with her and Greg.
Thanks,
Michael

Thanks Bryan. EPA plans to start distributing flyers to residents in the West Calumet Housing Project later this afternoon. We have several people available to help with the distribution. We will be wearing shirts with the EPA logo.

Annette,

Thank you for your message. If EPA would like to receive additional input, please feel free to send us another draft and the City may provide additional comments for EPA's consideration. However, EPA should not wait for additional comments from the City and should proceed with implementing its

communications process once EPA has developed a document that meets its needs and communication strategy. The City does not want to delay EPA's distribution of important lead safety information. The City would appreciate it if EPA would keep the City and ECHA apprised of EPA's timing and plans to distribute information to residents.

Best regards,

Bryan

Subject: Flyer

Bryan --

EPA is in the process of revising the flyer to address concerns the city raised.

Does the city want to see the revised flyer prior to EPA making copies and distributing?

Your quickest response possible would be appreciated.

Annette
